

Today I am going to consecrate my words to my homeland in the form of speech on 14th August Independence Day of Pakistan in English. "14th August" the day of birth of Pakistan and the day to stand up together singing the national anthem and to raise the sound of proclaiming that 'we are Pakistani'. Yes of course! This is a devotional day for all Pakistani nationals not only in Pakistan but also for those Pakistanis who are sitting in abroad countries. The reason is that Pakistan is our unique recognition on the map of the world. The reason is before the formation of a separate country for sub-continental Muslims; no one respects the real religious rights of Muslims. One of the big issues between Hindus and Muslims was the difference between their living styles, in their rituals, in their foods as well as their litanies. If Muslims use to eat cow's meat the Hindus use to adore before cow if Muslims bow before Allah and the Hindus bow before stones (Baghwan). Moreover, Hindus were superior in amount while Muslims were a few and helpless. So in these hurdles, one man sees a dream of Independence and one aim to make his dream come true and after a lot of efforts and delegations Pakistan came into being.

The one who sees the dream of Pakistan was Dr. Allama Muhammad Iqbal (The Poet of East). That time Muhammad Ali Jinnah (Quaid-e-Azam) was a student and a member of Hindu political party 'Congress'. But after listing this dream and when he comes to know that Congress was just supporting Hindus and neglecting Muslims, he moves towards Muslim Political party "Muslim League". The entrance of this hero to this party was a massive turn around for Muslims.

Alongside the Quaid-e-Azam and Allama Iqbal; the name of "Sir Syed Ahmed Khan" is also written in golden words. Sir Syed realize Muslims to learn English and he organizes schools and colleges where Muslims were independently allowed to take admission and to study English. Afterward, when Muslim got educated they were allowed to apply for jobs. After that when Muslim League got stronger with the entrance of educated youth Quaid e Azam put the question to get an Independence country with the name of "Pakistan". He gives a track and works hard on it and it was the result of this effort that Pakistan came into being on 14th August 1947.

When it was announced that all the Muslims of Sub Continent will migrate from India to Pakistan, Hindus start killing them openly. Many of our forefathers, little child, our brothers, our mothers, and sisters were killed brutally by Hindus. But in the end, Muslims got their homeland.

So it is really a big day for all of us to remember that sanctify and efforts and we all thank God to our Allah who bestowed us with this peace land where we can live independently under the Islamic Rules. Thank God once again and we all pray that Allah keeps our motherland alive forever till this world.
